To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

GENTLEMEN:—I am advised by Supervising Chemist Spaulding as follows:—"It looks probable that lime prices will rise for a while. The market during the past three years has been declining and Bloomington has profited by purchases in the open market. In the event that this situation is reversed, as seems likely now, it will pay Bloomington to contract for annual requirements. For this reason I am enclosing alternate specifications on which to advertise for our annual requirements of approximately 750 tons quicklime to be delivered in minimum cars as required".

The following companies should be notified:
Ste. Genevieve Lime Co., St. Louis, Mo.
Marblehead Lime Co., Chicago, Illinois.
The Aluminum Co., of America, St. Louis, Mo.
Louisville Lime & Cement Co., Louisville, Ky.

Yours respectfully,
CHARLES H. SPAULDING,
Supervising Chemist."

I would therefore recommend the City Clerk be instructed, 1st. to advertise for bids as provided by law for 750 tons of quick lime of quality outlined in attached specifications, to be delivered in minimum cars as required on Lake Bloomington switch track at Kappa, Illinois.

2nd. To mail copy of advertisement and specifications "A" and "B" and "C" to the four companies as outlined in Mr. Spauldings letter.

Elias W. Rolley Public Accountant, presented the following report:

Bloomington, Illinois, September 15, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

GENTLEMEN:—I have audited the records of the Special Assessment Funds of the City of Bloomington and herewith submit the attached report.

The purpose of the audit being to establish the status of the various Improvement Accounts in the Special Assessment Funds: known as, Fund 1, Sewers and Watermains, and Fund II, Pavements.

The receipts of principal have been proved with the Assessment Rolls of the various improvements and the disbursements with the final report of the City Engineer, on completion of the improvement, and the Bond Register.

It was impossible to accurately prove receipts of interest or to prove miscellaneous disbursements on different improvement accounts, because disbursements for advertising and inspection fees were, until recently included with disbursements from the General Fund.

A careful check has been made of the Receipts and Disbursements, Tax Sale Certificates on Hand, Delinquent Installments, Unpaid Installments, Public Benefits Unpaid, Rebates Unpaid, Bond Coupons Due and Unpaid, Outstanding Bonds and Certificates of Indebtedness on each "live" improvement.

A "live" improvement being defined as an improvement on which there was outstanding indebtedness on April 30, 1933.

There is a cash deficiency of $1,924.62 in Fund I and of $11,426.20 in Fund II caused chiefly by the fact that the interest on Bonds and Certificates exceeds in nearly every improvement the amount of interest collected on installments. This deficiency can be decreased by charging the legal interest penalties on Tax Sale Certificates.

I certify that the attached schedules and notes are true and correct to the best of my knowledge and belief.

Respectfully submitted,
ELIAS W. ROLLEY,
Public Accountant (ILL.)

The first two weeks of the month were spent with work with the Health Camp—the camp closing August 14th for the 1933 season. Of the last group sent to camp twenty-five were in camp the full three weeks and made an average gain of 4 plus pounds—the average gain of the whole group being 3 lbs. Of this last group 14 were seriously underweight and all made a fair gain. All of the last group made a better camp record than did the first group—posture exercises were given to those needing them.

Swimming lessons were given and many children became quite proficient in swimming and handling themselves in the water. Prizes were given for the best sun tan and many children were so enthused with the sun baths that they are continuing them in their homes. Home visits have been made to all camp children to urge the parents to continue the health program started at camp.

Schick tests were made during the month on children receiving toxoid treatments since January first with about seventy percent of those children having negative tests. Those having positive tests are repeating the toxoid treatment.

A check has been made on children needing tonsil operations to find that 63 have had corrections made this summer. A number have had vision corrections also.

Bloomington, Illinois, September 29, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

GENTLEMEN:—We wish to bring the following condition to your attention and to ask the Health Department to take action to relieve the unhealthy and unsanitary condition.

The property at 506 E. Graham street, owned by us and occupied by H. McClurg, who has been annoyed by sewer gas and stenches coming along the walls and floor at the front room in the basement from a sewer that cuts diagonally across the south east corner of the house and passes under the house to the east of us, but does not serve any property on Graham street at this point so far as we canlearn.

Our own sewer extends from the north of the house to the alley north of the lot and then east to Evans street sewer.

The City Street Department last winter dug down to the sewer on the front lawn and found that this sewer had a cesspool without a bottom at this point, but this did not relieve the condition.

Our tenant advises he is going to move on account of the unbearable gas and odor and the health of his family. We cannot afford to lose our tenant and have the house vacant, therefore, we will appreciate having this sewer closed at a point far enough away so that the gas and odor will not come in along the walls and floor.

Yours very truly,
WALTER J. and CARL A. FREESE,
Per CAF.

Referred to the Health Committee.

Presented by Alderman Olson:

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

GENTLEMEN:—Your Streets and Alleys Committee to whom was referred the following resolution would respectfully report that we have investigated the same and would recommend that the work be done.

Resolution by Alderman Harting that the City Engineer be and is hereby directed to cut back north east corner of Miller and Lee streets.

FRED OLSON,
WILLIS SCHUETH,
Streets and Alleys Comm.

On motion by Alderman Olson the report was adopted and recommendations concurred in.

On motion by Alderman Harting the petition of the E. B. Collins Co. to install sign at 326 S. Main street was referred to the City Electrician with power to act.

Presented by the Clerk:

Bloomington, Illinois, October 12, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

DEAR SIRS:—Some years ago, we were granted the right by your Honorable Body to install a machinery room on the east side of the LaFayette Apartments underneath the sidewalk, this machinery room to extend from our own building, and on our own property, eastward to the curb line. Water softeners were installed, but later discontinued. We now desire to install the heating plant as originally contemplated. Some time ago, we were granted the right to construct the smoke stack for this plant.

We desire to install two boilers complete with automatic controls and oil burners. One of these boilers will be inside of our own property line, but the east boiler will extend out under the sidewalk. The boiler is a reserve boiler which we are installing to take care of emergencies in extremely cold weather.

If a new permit is required—we now wish to petition your Honorable Body for a permit to install the plant as described. The boiler is a type C, low pressure cast iron boiler, made by the Kewanee Boiler Company, and will have proper safety controls, and blow-off pit.

Trusting this will receive the attention of your Honorable Body at your earliest convenience, we respectfully submit this petition.

Respectfully yours,

C. U. WILLIAMS, *Pres.*,
Lafayette Apartments.

On motion by Alderman Irvin the petition was referred to the Building Inspector, Fire Marshal and Sidewalk Committee.

On motion by Alderman Harting the Claim of J. D. Casselman for damages to auto account of ditch on Lee street was referred to the Claims Committee.

With the opening of schools, classroom inspections were made of all the children in the six lower grades in all schools and of the whole school wherever requested by the principal. Numerous cases of skin infection were thus found early in the school year and excluded for treatment.

The last two weeks of the month were given over to examinations of the first grades in nine of the schools. The physical examinations were made by the Health Director and the weighing, measuring and vision testing checked by the nurses. All first grade children will be examined as to vision and hearing by the nurses during the school year.

All children dropping out of High School are being followed up as to reasons for so doing. Two High school children have been sent to the Tuberculosis clinic for tests and three others have been investigated as to vision defects.

Loan supplies have been used in two cases during the month. The services of a part time typist have been secured for typing our school records. This work is done gratitously for the experience offered in office work.

GLENDORA M. BLAKELY,
Supervising Nurse.

On motion by Alderman Sargent the insurance policies of various taxi cabs were referred to the Finance Committee and City Sargent.

On motion by Alderman Harting the City Engineer was directed to repair sidewalk at 206 W. Miller street and charge same to the account of Parker Bros.

RESOLUTIONS

Presented by Alderman Kurtz:

Bloomington, Illinois, November 10, 1933.

Be It Resolved by the City Council of the City of Bloomington, Illinois:

That the Local Board of Improvements make the necessary arrangements

for the construction of a concrete sidewalk on the east side of Clinton street, between Grove street and alley to the south .

On motion by Alderman Kurtz, duly seconded by Alderman Olson, the resolution was adopted.

Presented by the Clerk:

Bloomington, Illinois, November 7, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois: Attention: Mayor Wellmerling.

GENTLEMEN:—Since the construction of the treatment plant of the Bloomington and Normal Sanitary District the power for pumping has been purchased by the District from the Illinois Power and Light Corporation. The District officials are not satisfied with the rate which is being paid for power to the Illinois Power and Light Corporation, and, being desirous of reducing the expenses of the District so that they may save as much as possible for the taxpayer, they have instructed me to address a communication to you to ascertain the possibility of obtaining electric power service from the electric plant of the City of Bloomington.

The Sanitary District pays the Illinois Power and Light Corporation on the basis of I.C.C. Schedule No. 2 which involves a demand of such an amount that it is very seldom that the District can procure its power for very much below 2c per KWH, whereas the Galesburg Sanitary District is procuring its power for 1.6 per KWH regardless of the amount of power used.

The Sanitary District officials feel that power should be furnished to the District, considering the quantity of power used and the steady load for a rate of 1.6.

Please be kind enough to look into this matter, or refer this communication to the proper department of your city government, and then communicate with the officials of the Sanitary District. Thanking you, I am

Very truly yours,

RICHARD F. DUNN.

On motion by Alderman Olson, seconded by Alderman Sargent, the matter was referred to the Sup't of Water and Light, the Mayor and the Water Board.

During the month the first grade examinations were completed and the third grade examinations started. Splendid cooperation has been given by the health chairmen of the various Parent-Teacher groups in these examinations.

A recheck was made on the Vision Survey conducted last year with the results found to be:

Children examined last year—1,725.
Children found needing correction—194.
Children having moved from schools—29.
Children having vision corrections—123.
Children in sight saving classes—1.

One other child will probably go to Jacksonville to the State Blind School sight saving class.

The dental clinics have been resumed and are financed by funds received from City Council, City School Board, American Legion Auxiliary, Parent-Teachers Associations and the amount left over from last year. Two clinics are held weekly—one of the nurses from the health department assisting. Lay workers have also offered their services for each weekly clinic.

Through the efforts of the nurses a health play emphasizing the value of diptheria immunization was put on before the Brokaw Alumni and the Edwards Parent-Teachers Association. The nurses also attended the conference of the American Public Health Association at Indianapolis and the State Nurses Association annual meeting in Chicago and took an active part in the programs.

GLENDORA M. BLAKELY,
Supervising Nurse.

On motion by Alderman Harting, duly seconded by Alderman Kurtz, the report was received and placed on file.

Bloomington, Illinois, November 15, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

Pursuant to the verbal explanation before your honorable body, the writer has secured the signatures of sufficient police and firemen to warrant the issue of a Group contract covering these lives for $1,000 natural life, $2,000 accidental death along with the Dismemberment Clause, including, at no additional cost whatever, our Laboratory Longevity Service.

The city employees above referred to have expressed their desire to avail themselves of this very low net cost protection, the total premium of which would be approximately one-third of the regular rate policies. This low rate is made possible only through coverage in this blanket form.

Employees contributing $1.25 per month, coverage would cost the city less than $40.00 per month. The Dividends, which are paid annually, would be paid to the City of Bloomington thereby still further reducing the net cost.

No medical examination required. The various very favorable concessions granted by the Prudential Insurance Company make it possible for certain employees to have this protection that could not be purchased by them under any other circumstances.

Contract will be in immediate benefit upon the signature to the Master Application by some executive in authority.

The majority of your police and firemen, as well as the writer, respectfully request your favorable consideration.

Very truly yours,
W. J. ST. JOHN,
Superintendent.

Motion made by Alderman Goodger and duly seconded by Alderman Gunn that the communication be referred to the Finance and Judiciary Committee.

Substitute motion made by Alderman Sargent and duly seconded by Alderman Summers, the communication was referred to the Police Committee, Fire Committee and City Attorney.

The following petition was presented by the Clerk:

Bloomington, Illinois, December 1, 1933.

City of Bloomington, City Hall, Bloomington, Illinois:
Attention Mr. Herman Bock:

DEAR SIR:—We have recently decided to install a larger water pipe leading from the main into our garage building, which is located at the corner of Washington and Madison street.

We have been informed that there is a six-inch main running through the alley back of the garage which would be a very convenient place to tap into.

It is our desire to get a permit from the City Council to make this improvement at an early date.

Will you kindly take this matter up with the council at your earliest convenience and advise us as to when we may do this work.

Very truly yours,
C. W. FREY & SONS, INC.
L. D. MEADOWS.

On motion by Alderman Irvin, seconded by Alderman Olson, the petition was referred to the Water Board and Superintendent of Water and Light.

The Clerk read the following communications:

Bloomington, Illinois, December 1, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

At the regular prayer meeting of First Presbyterian Church last Wednesday night at which there was an attendance of sixty-one, a unanimous vote was cast instructing me, the clerk, to protest most vigorously against allowing dance halls to be opened on Sunday in Bloomington.

It is our profound conviction that such action as allowing Sunday dancing in Bloomington would tend toward lowering the standards of moral and spiritual life in our fair city. We ask you that not action be taken in reference to this request.

Yours Very Sincerely,
E. S. SUMMERS, *Clerk.*

Bloomington, Illinois, December 1, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

As a citizen, and as the head of the local post of The Salvation Army of Bloomington, Illinois, I do hereby request you, the governing body of the City of Bloomington, Ill., to reject, and refuse to grant, any petition asking for Sunday dancing.

This request is also approved by one hundred (100) voters of the City of Bloomington, Ill., who attend the local Salvation Army.

Respectfully Yours,
CAPTAIN C. OVERSTAKE,
The Salvation Army.

(In addition to the above mentioned communications, the Clerk has on file in his office 18 similar communications).

On motion by Alderman Olson, seconded by Alderman Kurtz, the communications were received and referred to the Judiciary Committee.

Norman J. Rock
City Clerk.

Adjourned session of the regular meeting of December 5, 1933, said adjourned session convened in the Council Chamber, City Hall Building, Tuesday, December 5, 1933, at 7:00 o'clock P. M.

The meeting was called to order by His Honor, the Mayor, who directed the Clerk to call the roll, the following members answered present:

Mayor L. F. Wellmerling, Alderman Gray, Welch, Turpin, Harting, Kane, Sargent, Kurtz, Gunn, Marquardt, Schueth, Irvin, Olson. 12.

Absent: Alderman Summers, Goodger. 2.

Motion by Alderman Olson, seconded by Alderman Sargent, that this Council recess for an indefinite period.

Motion carried.

The Council re-convened after recess and the meeting was again called to order at 9:45 P. M.

The following report was presented and read by the Clerk:

Bloomington, Illinois, December 5, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

The undersigned Committees and City Attorney, to whom was referred the resolution of Alderman Olson, that consideration be given to the matter of the regulation and control of the sale of intoxicating liquor, would respectfully report as follows:

A serious question has arisen as to whether or not the City Council is in a position at this time to pass such an ordinance. Governor Horner has expressed the opinion that Section 46, paragraph 65, of Cities and Villages Act, has been repealed, except insofar as it authorizes cities to prohibit the sale of intoxicating liquor, and accordingly that cities have no legal right to pass liquor ordinances until the legislature has acted. He has urged that cities refrain from passing their liquor ordinances for the further reason that such premature action would tend to obstruct the early passage of the State Law.

The Attorney General has not given a formal opinion on the question, but has indicated informally that he thinks cities and villages have the power to pass liquor ordinances.

Due to the uncertainty as to the legal status of the matter, and as to the advisability of proceeding without knowing what may be permitted and prohibited by the State laws, we have been hesitant about submitting an ordinance to the Council. Many of the provisions of the ordinance submitted herewith may be found to be in conflict with the provisions of the State Law, when enacted. This may result in working some hardships on licensees and may require the passage of an entirely new ordinance, the publication of which will incur considerable expense to the City. As a safeguard to the City, a section has been inserted which provides that nothing contained in the ordinance shall be construed to authorize licensees to sell intoxicating liquor in violation of Federal or State Laws.

We have felt that our present prohibition ordinance would suffice for the present ,although there may be some question to its legality.

Much pressure has been brought to bear to bring about the early passage of the ordinance. It is therefore more as a matter of expedience than of sound business judgment that we are submitting the proposed ordinance herewith.

Respectfully submitted,

FRED OLSON,
EDWARD KANE,
License Committee.

A. L. SARJENT,
FRANK H. GUNN,
Judiciary Committee.

THOS. A. WELDON,
City Attorney.

Approved:
L. F. WELLMERLING,
Mayor.

Attest:
HERMAN J. BOCK,
City Clerk.

On motion by Alderman Olson, seconded by Alderman Summers, the report was adopted and recommendations concurred in.

The following ordinance was then presented and read by the Clerk:

Section 5. BOND—FILING OF—CONDITION. Each person desiring a Class "A", or a Class "B", or a Class "C" or a Class "D", or a Class "F" license shall execute a penal bond in the sum of One Thousand Dollars, with at least two personal sureties, or a solvent surety company licensed to do business in the State of Illinois, to be approved by the Council. Said bond shall be filed with the City Clerk at the same time the application is presented and shall be transmitted by the Clerk to the Council with said application. Said bond shall be conditioned for the faithful observance by the licensee of the provisions of this ordinance and of the laws of the State of Illinois and of the United States of America applying to the sale and possession of intoxicating liquor. A new bond shall be filed and approved upon the renewal of all licenses.

Section 6. REVOCATION OF LICENSE. The Mayor may suspend or revoke any license issued under this ordinance for any one or more of the following reasons:

1. Violation of any of the provisions of this ordinance, or of the laws of the State of Illinois or of the United States of America with reference to the sale of intoxicating liquor.

2. The wilful making of any false statement as to a material fact in an application for a license.

3. Permitting any disorderly or immoral practices upon the premises where the licensee is licensed to sell intoxicating liquor.

Upon revoking or suspending any license, the Mayor at the next regular meeting of the City Council shall report such fact to said body, together with his reasons therefor. If said Council does not disaffirm said action, then said revocation or suspension shall remain in force. If said Council disaffirms said action, the licensee may resume business under his license without further authority. Said licensee shall not operate under this ordinance between the time of any revocation or suspension by the Mayor and the aforesaid report to the Council, and if said action is disaffirmed, said licensee shall be entitled to no refund of his license fee and shall have no claim against said Mayor, or the City, on account of such revocation or suspension of his license during that time. A person whose license has been finally revoked or suspended shall not be entitled to any refund on account of the license fee paid by him.

The acceptance of a license under this ordinance shall constitute an agreement on the part of the licensee that the license so issued may be revoked as in this Section provided.

Section 7. LICENSE TO BE POSTED. Every person licensed in accordance with the provisions of this ordinance shall immediately upon the receipt of his license, post, and shall thereafter keep posted, said license in a conspicuous place on the premises. If such license should be lost or destroyed, a duplicate license shall be issued by the City Clerk.

Section 8. LICENSE TO COVER ONE LOCATION ONLY—ONLY ONE TO BE ISSUED TO ONE PERSON. The license issued hereunder shall authorize the licensee to conduct the business so licensed in one location only, and no person shall be entitled to a license for more than one location; nor shall the holder of a license of any one class be permitted to receive a license of any other class.

Section 9. LICENSEE MUST SELL ON GROUND FLOOR—EXCEPTIONS. No license shall be issued for the sale of intoxicating liquor in any basement, or any floor above the first, or ground floor, but all said intoxicating liquor shall be sold and served only on the first or ground floor of the premises licensed hereunder; provided, that this section shall not apply to bona fide fraternal organizations, or clubs, which have been organized and in existence and have been maintaining regular lodge or club rooms in said City for one year next preceding the issuance of such license and provided further that this section shall not apply to persons who at the time of making application for a license are actually and in good faith engaged in and conducting a regular and bona fide business in another line in the basement or on the floor above the ground floor for which such license is requested.

On motion made by Alderman Sargent, duly seconded by Alderman Irvin, the rules were suspended to permit Mr. John Felmley to address the Council.

Mr. Felmley then read the following communication:

Bloomington, Illinois, December 8, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

After consultation with Mayor Wellmerling and John Felmley, chairman of the McLean County Civil Works Committee, the undersigned begs to submit for your consideration the following information, and the suggestion that the best interests of this city would be served by the appointment of a committee to determine, without delay, the possibilities relative to taking advantage of the present Civil Works Administration offer of the grant of labor and materials for the construction or rehabilitation of municipal airports. The full assistance of the Association of Commerce Aviation Committee will be at your disposal.

On November 25 it was learned through press reports that Governor Horner has received word of this proposed federal aid, together with request that he appoint an Illinois representative to be sent to Washington with a list of possible Illinois projects, and to receive detailed instructions. Appointment was made in the person of L. P. Bonfoey, chairman of the State Areonautics Commission, who was accompanied to Washington by Elwood P. Cole, secretary of the Commission. Immediate contact with these gentlemen by telephone disclosed a lack of knowledge of specific requirements, but resulted in the inclusion of Bloomington in the tentative list of beneficiaries. The first detailed instructions were received by the Commission in Springfield yesterday, Thursday, December 7, and were telephoned to the undersigned substantially as follows:

1. To be elibible, the project must be a municipal one, the property being held by a city by direct ownership or under a five-year lease with option of purchase, and the city must agree to hold the property open at all times during the five years for use as an airport, except only when under construction or repair.

2. Application for aid showing due compliance with the foregoing requirements and specifying in detail the work to be done and the amount of money applied for, must be executed on two CWA forms to be furnished, and filed with the State Aeronautics Commission, and the Department of Commerce and CWA authorities at Washington.

3. While no absolute deadline is fixed, it is urged that such applications be filed by December 15.

4. Any airport improvements of basic value will qualify, except that the expenditure for labor must be at least 80% of the total.

5. Direct preference in granting applications will be given cities so located as to be of present and future value in the development of airways from a federal standpoint.

From this and previous information obtained from the Aeronautics Commission and the Department of Commerce, Aeronautics Branch, the aviation committee believes that there is no question but that Bloomington can qualify for federal aid as one of the preferred locations, and that by action to that end, this community should gain a number of important advantages, among which are the following:

1. The labor situation would be materially improved by the addition of several thousand dollars to local CWA aid that otherwise would not be available to Bloomington. No definite allotments of funds have been made, it being expected that they will be proportioned in accordance with the importance and needs of the particular project. The practival minimum will have to be determined by your committee after selection and examination of a site. Some guide may be had from the fact that a suitable tract would probably be about 150 acres, and the work would consist chiefly of drainage, grading and surfacing, such as seeding or sodding and the laying of all-weather material on certain portions for runways, plus constructing at least a waiting room and administration building, if not a hanger (unless the present field should be found susceptible of improvement to meet requirements for scheduled air transport service).

2. This city would have control of a federally approved landing field, which it could later develop into a modern airport, as have various other cities,

or it could sell or lease to responsible private interests. Many municipal fields, or parts thereof, are under lease to commercial operators, thereby giving the city control and enough revenue to either break even or perhaps make a slight profit, and at the same time gaining the advantage of operation by persons experienced in that line and anxious to maintain service at a high level of efficiency in order to make a maximum earning on their investment.

3. Such an airport should offer an important improvement in transportation to both private citizens and business men in line with the modern coordinated development of air and railroad travel. For the first several weeks after October 1, 1931, during which regular schedules were maintained by Century Air Lines, the number of passengers handled in and out of Bloomington averaged slightly under four persons daily. From the experience in various cases, it is believed that this service should serve more as a supplement to than a form of competition with present railroad passenger business, and we believe the point is clear that delay in accepting establishment on an airway, which is sure to come to Bloomington sooner or later, would accomplish little, if anything, on the one hand, and possibly on the other deny the community an important future asset.

4. The maintenance of a modern and efficient airport, prominently marked with the name "Bloomington", close enough to the city for easy over-night stops, and so on, should serve as an effective advertising medium and improve, for example, the prospects of bringing additional interests here in the manufacturing line.

Bloomington's prospects for financial help in providing an adequate field and taking advantage of the foregoing factors are, we believe, particularly bright in that this city is located almost exactly on the direct airline from Chicago to St. Louis, about half-way between those two points, and this direct line is favored by much better topographical and weather condtions than obtain along the Illinois river, by which longer route the airway is at present lighted and operated. All of the daytime schedules of American and Braniff airlines, that are not required to stop at Peoria, take the direct route for saving in mileage, and various representatives of the United States Department of Commerce, Aeronautics Branch, are authority for the opinion that these favorable factors must result eventually in placing Bloomington in one of the most important air traffic lanes in the country, regardless of how much business Peoria attracts. For this reason the city, under requirement No. 5 noted above, is assured liberal treatment from the standpoint of CWA funds, if it places itself in a position to qualify for those funds.

We are reliably informed that a number of cities on the Chicago-St. Louis route, including Lincoln and Pontiac, are already actively engaged in an attempt to set up fields under the new federal plan, and inasmuch as the Department of Commerce specifies 50-mile intervals as about the average necessary for safety between emergency landing fields, it would seem obvious that failure on Bloomington's part to be represented might militate seriously against help in future devolpment, because this location would not be absolutely needed from an emergency landing standpoint. In the second place, if Bloomington is to go along with other cities in improving a field, it would appear distinctly advantageous to get its bid in early enough to assure the preference that it deserves because of its size, location and importance.

Accordingly, we respectfully urge your honorable body to consider action along the following lines:

1. Authorization at this meeting of the appointment of a committee headed by a member of your body, to take this subject under immediate consideration.

2. Submission to you by this committee, not later than next week, of recommendations, including the terms of a specific lease and action thereupon if you see fit, and

3. Submission promptly thereafter of application for federal aid as required.

Yours very truly,

AVIATION COMMITTEE, A. OF C.

Bloomington, Illinois, December 7, 1933.

I. F. Wellmerling, Mayor, City of Bloomington, Ill.:

YOUR HONOR:—Having been a tax payer for the past 13 years in this city and having conducted myself as a good citizen should during that time, and having asked no favors from anyone although the past four years have been trying.

Recently with repeal of 18th amendment, it was my good fortune to have offered me the agency in Bloomington and surrounding territory for one of the leading distillers, on a strictly wholesale (not as wholesale and retail) basis, was making preparations for same thinking that at last I was going to get a break again, and make a fair living for my family and myself, when CRASH out of a clear sky your council passed an ordinance taxing a wholesaler of liquor the same as a dispenser of same, I honestly believe that your council had no thought such as this in mind when making up classifications and license fees, or they did not know that there was and must be a separate distinction between a Wholesaler and a Retailer.

It never has been customary in other cities to tax the wholesaler in as much as he pays to the Federal Gov't four times as much Permit Fee as the dispenser does also a wholesaler is subject to a gallonage tax by the state in which he operates, also that all packages sold by a wholesaler must be sold to the retailer intact with the Gov't stamp intact, further he must make a record of all sales made, amount and to whom, and these records kept for inspection of Federal officers at all times. Further a wholesaler liquor dealer operates on from 15 to 20% margin maximum, from this come out his overhead, for this reason it is impossible for him to pay a higher license fee than a wholesale beer distributor, as he operates the same way namely, warehouse, telephone, and delivery service. Further a beer distributor is now selling an intoxicating beverage in as much as the alcohol content is from 3.2 to 12%, so why should there be any discrimination between the two wholesalers.

In this city three wholesalers of liquor contemplate operating a strictly wholesale liquor business, selling only to the retail trade, and only in unbroken packages, with Gov't stamp intact, the three distributors mentioned are of good repute, two are citizens and tax payers of this city with children attending our schools, incidently owning real estate here.

I do not believe that your council took cognizance of the fact that there is a distinct difference between a wholesaler and a retailer, and the service that a wholesaler is to the retailer, had they, I am sure they would not have passed an ordinance requiring the wholesales to pay the same license fee working on a 15 to 20% margin as a dispenser who operates on from 50 to 100% margin.

I do not believe your Honor nor his council would desire that some of your good citizens leave this fair city where they have homes and have made friends, take their families and their agencies to some other city a few short miles away where the license fee is not out of reason with the profits accrued.

The writer does not care to leave this fair city and his friends, just because a mistake has been made that can be corrected, mistake I am sure is all this is and that it can be corrected, as I believe the mayor and his council are men of intelligence at least we thought so when we elected them to head our city gov't., neither does the writer believe that the mayor and his council wish to see wholesalers from all parts of the country come in to this city and take the business away from those it rightfully belongs to and who will make every effort to see that it is kept clean, further out side wholesalers do not pay taxes, or spend other monies that come into our city treasure.

Your Honor, with the above in mind I implore you to use your good offices by having this mistake corrected and at once by licensing the strictly wholesale liquor the same as a wholesale beer dealer, and classify him as such and not combine his as a *wholesale and retail liquor dealer.*

Thanking you for your prompt action, I am awaiting your reply.

Very truly yours,

BLOOMINGTON DISTRIBUTING CO.

A. E. Shalla, Managing.

On motion duly made by Alderman Harting, and seconded by Alderman Summers, the communication was referred to the License and Judiciary Committee.

The Clerk read the following communications:

Bloomington, Illinois, December 5, 1933.

Hon. L. F. Wellmerling, Mayor of the City of Bloomington, Illinois:

DEAR SIR:—In regards to the petition which is to come up before the City Council pretaining to passing an ordinance to permit Sunday dancing within the City limits of Bloomington.

Local No. 193 of the International Alliance of Theatrical Stage Employees and Moving Picture Machine Operators of Bloomington asks your support in favor of passing this ordinance, in view of the facts that this would put Sunday dancing under police supervision as well as week night dancing, and furthermore, this Local contends that the passing of this ordinance will create work for men of our craft as well as other Crafts of the City.

So in view of these facts, Local 193 asks you to give your support in favor of this ordinance, and remain,

Respectfully yours,
LOCAL NO. 193, I. A. T. S. E.
By H. Ling, *Sec'y.*

Bloomington, Illinois, December 7, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

We wish to express our attitude in reference to Sunday dancing in Bloomington, the issue we understand being at present under discussion.

Benefit to hotels would be the inducement to traveling men to Sunday in our city, which in turn would benefit other types of business. We believe it might tend to bring in this patronage that now spends week ends elesewhere.

Sincerely yours,
ILLINOIS HOTEL COMPANY,
S. R. Gill, *Mgr.*

Bloomington, Illinois, December 6, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

GENTLEMEN:—At our regular meeting held on this date, action was taken to ask your honorable body to give favorable consideration to the matter of amending Section 68 of Paragraph 940 of the revised ordinances of the City of Bloomington which deals with places of amusement, (including dance halls) to keep open on Sundays within the city limits.

We feel that if such an ordinance is adopted and adequate police supervision provided it will give to our younger generation a decent safe place in which to enjoy themselves as well as to furnish some much needed employment to Musicians, Stage Employees, etc.

May we look forward to favorable consideration of the above request.

Respectfully submitted,
BLOOMINGTON TRADES AND LABOR ASSEMBLY,

Bloomington, Illinois, November 26, 1933.

Mayor Wellmerling:

DEAR SIR:—I protest vigorously in regard to the Coliseum dancing on Sunday. We have a hard time keeping the morals of our children on the straight and narrow path. People who want to frequent places out of town will do so in spite of the fact that our Coliseum is open on Sunday.

Sunday, the only day we have to worship God, should be kept holy. If we do not worship God we shall never recover from this depression.

I hope and pray you will heed the plea of an anxious mother, a member of the P.-T.A. Council, Bloomington.

Cordially,
MRS. R. W. LORENZ,
404 S. State street.

Mr. L. Wellmerling, Mayor:

DEAR SIRS—I understand it is to be decied tonight whether or not a permit will be given for the Coliseum to remain open for dancing over Sunday, and I ask in honor of our Lord and the sake of the youth of our community, that you do not allow this to happen. There is so much of that sort of thing going on now, that we are scarcely entitled to any longer be called a Christian Nation. Instead of lowering the reputation of our City, why not try to clean it up instead of digging deeper into vice.

Yours Respectfully,
S. G. WRIGHT,
A tax payer and voter.

Bloomington, Illinois, December 3, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

We, as the Philathea Class of the First Methodist Church, petition the Mayor and City Council not to allow the Coliseum to operate on Sundays as thru the week.

Our class numbers sixty-six and we as individual members seriously object to the opening of Public Dance Halls on Sundays and hope you will not sanction such petition.

Yours very truly,
PHILATHEA SUNDAY SCHOOL CLASS,
Mrs. J. J. Algers, *Teacher.*

Bloomington, Illinois, December 1, 1933.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

We wish to join with other church organizations of Bloomington, in entering a protest to allowing the Coliseum to hold public dances on Sunday nights.

THE LADIES AID SOCIETY
OF FIRST M. E. CHURCH.

Bloomington, Illinois, December 4, 1933.

The Clerk read the following communications:

Bloomington, Illinois, December 21, 1933.

City Council, Bloomington, Illinois:

DEAR SIRS:—I write representing the Illinois Wesleyan University, which through its Committee on Administration respectfully petitions your honorable body to refuse to grant liquor licenses for places near our campus. The immediate application to which we refer is that of a Mr. A. E. Hubbard at the corner of Main and Division streets. He is now operating the Maid-Rite Sandwich Shop, which is frequented by many of our students. Believing it will place unnecessary temptation before them and tend to demoralize the good atmosphere of our campus and neighborhood, we earnestly request that you do not issue this license

We are doing all in our power to keep the atmosphere about the Wesleyan as wholesome as possible. Personally I wish to express in advance my appreciation of your favorable consideration of this request.

Respectfully yours,
H. W. MCPHERSON,
President.

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

We, the undersigned residents and voters, protest most emphatically against the issuance of any license for the sale of intoxicating liquors at or near the corner of Main and Division streets or any place in our neighborhood. This is a residence district and we desire to keep it a quiet neighborhood. Furthermore, this portion of the city is in the immediate vicinity of Illinois Wesleyan Unversity. We feel that we owe this much consideration to the interests of the University and its student body.

Respectfully submitted,
Signatures of 109 Petitioners, Five of which are "Mr. and Mrs."

On motion of Alderman Olson, seconded by Alderman Summers, they were referred to the License Committee.

The Clerk read the following communication:

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

We, the undersigned, prospective licensees under the recently adopted Ordinance for the Regulation of Sale of Intoxicating Liquor, would respectfully request that said ordinance be amended as follows:

1. That the opening hour be changed from 8:00 o'clock A. M. to 7:00 o'clock A. M., and the closing hour be extended to 12:00 o'clock midnight.

2. That those engaged in operating Pool and Billiard Halls and Bowling Alleys, may be permitted to procure a Class "F" License, to sell beer only, to be consumed on the premises.

In regard to the latter request, we beg to state to the Council that in these places beer has been sold since the passage of the Malt and Vinous Beverage Act. Due to the depression it has been difficult to realize sufficient to keep going, even including the sale of beer, and it would therefore work a great hardship on those engaged in said business if they are obliged to dispense with the sale of beer. Signed by 19 Prospective Licensees.

On motion of Alderman Olson, seconded by Alderman Summers, the communication was referred to the Judiciary and License Committee.

The Clerk read the following:

To the Honorable Mayor and City Council of the City of Bloomington, Illinois:

GENTLEMEN:—I hereby make application for rebate on my Cabaret license for term ending April 9, 1934. Date of receipt—10-9-33. Date of closing cabaret—12-13-33. Amount paid—$50.00.

E. B. SAVIDGE,
111 S. Main street.

On motion of Alderman Irvin, seconded by Alderman Summers, it was referred to the Claims Committee.

The following communication was read by the Clerk:

Springfield, Illinois, December 13, 1933.

Hon. Louis Wellmerling, City Mayor, Bloomington, Illinois.

DEAR SIR:—This is to advise you that Senate Bill No. 21 of the first special session of the 58th General Assembly, permitting the construction of natatoriums by municipalities having a population of more than 25,000 and not more than 500,000 has become a law. Inasmuch as this legislation contains a limited referendum clause, I am calling that clause to your attention and am suggesting that you inform the citizens of your community of its provisions.

The new law enables these cities and villages to borrow seventy per cent of the cost of constructing a swimming pool from Federal agencies authorized to loan for that purpose, and to obtain a grant from the Federal government of not to exceed thirty per cent of the cost of materials and labor.

A period of tend days after publication of an ordinance for the construction of a swimming pool is allowed for the filing of a petition for a referendum which must be signed by fifteen per cent of the electors. If such referendum petition is filed, then it is the duty of the city authorities to call a special election, at a time to be determined by them. If, at the end of this day period, no referendum is requested, local officials may proceed with the project.

Authority is given the city authorities to charge a fee sufficient to meet operating expenses of the swimming pool, and bond interest and principal charges. Should the municipality at any time, default on its bond payments, a court of competent jurisdiction may appoint a receiver for the swimming pool, who is empowered to charge such fees for the use of the pool as will produce enough revenue to meet operating expenses, and to retire the bonds.

I submit that to carry out the spirit of the referendum, your citizens should be advised of their right thereto, contemporaneously with the passage of any such an ordinance.

Very truly yours,

Respectfully submitted,
THE COMMITTEE,
N. J. Henderson, Chairman.

Bloomington, Illinois, December 26, 1933.

Members of the City Council, Bloomington, Illinois.

GENTLEMEN:—While condoning no crime of any nature, by any individual whatsoever, we believe the shooting of one Charles Luster, alias Junior Barker by Officer Weatherford Dec. 21, 1933, to have been unwarranted under circumstances of supicion only. It cannot be gainsaid that human life is too sacred to risk the possibility of an innocent sacrifice on the thought of probable guilt of a minor crime.

Since the boy has lived here all of his life and is well known all over the city, there is little doubt that the officer in question was aware of the identity of the boy, and thus had less reason to resort to such an extreme measure to effect his arrest.

The guilt or innocence of the party involved will be determined by the proper court in which, without doubt, justice will be dispensed. However, guilt does not qualify as a mitigating fact to excuse Officer Weatherford for his overt act.

Therefore, We vigorously protest this shooting as entirely unwarranted insist that the officer in question be disciplined therefor.

Very truly,
THE COMMITTEE,
N. J. Henderson, Chairman.

On motion by Alderman Gunn, seconded by Alderman Irvin, the resolution was adopted.

Presented and read by the Clerk:

Be It Resolved by the City Council of the City of Bloomington, Illinois:

that,

Whereas, the City of Bloomington and all of its inhabitants are deeply interested in the continuance of The Meadows Manufacturing Company in this City and are deeply concerned over the prospect that said factory may be compelled to close and a large number of employees, mostly heads of families, be thrown out of employment, and valuable property left vacant and its value largely destroyed; and

Whereas, we are advised that a petition for an order to sell the assets of said company has already been filed and that a sale of said premises is inevitable unless the company can procure finances sufficient to carry on said business; and

Whereas, we are advised that the company has on hand unfilled orders and is tendered contracts of such consequence as to enable them not only to maintain the present employment, but to increase it; and

Whereas, we are advised that the said company has made application to the Reconstruction Finance Corporation through a mortgage loan company for a loan sufficient to permit of its continued operations; and

Whereas, in view of the present unemployment situation in this community the continued operation of said company is of vital importance and the closing of said plant would constitute a public calamity; and

Whereas, the said company has not at this time and under the present circumstances any other opportunity for the obtaining of such funds except through said loan.

Therefore, Be It Resolved, that this body having implicit confidence in the possibilities of said company to furnish employment and to in due time repay the proposed loan they now seek from the Reconstruction Finance Corporation, His Honor, Louis F. Wellmerling, Mayor of this City, is hereby directed to make suitable presentation to said Reconstruction Finance Corporation, in person, of the concern of this Council and of this community with respect to the matter and request a favorable consideration of said loan.

On motion by Alderman Kurtz, seconded by Alderman Summers, the resolution was adopted.

On motion by Alderman Olson, seconded by Alderman Irvin, the meeting adjourned.

Norman J. Rock
City Clerk.
